Quarterly Review of European Medicine
Official Journal
of the Italian Medical Association
Official Journal of "Europa Medica"

PANMINERVA MEDICA

VOLUME 31 - 1989

Index

Subjects Index

Acetylsalicylic acid
Prevention of ischemic stroke after TIA: Medical or surgical treatment? A review of the main trials, 57.

Acid lipase deficiency
A case of acid lipase deficiency: Wolman's disease, 49.
Prenatal diagnosis of heterozygosis in a pregnancy at risk for Wolman's disease at the 8th week of gestation, 180.

ADA2
Serum adenosine deaminase activity in HIV positive subjects. A hypothesis on the significance of ADA2, 107.

Adenosine deaminase
Serum adenosine deaminase activity in HIV positive subjects. A hypothesis on the significance of ADA2, 107.

Adrenal calcifications
A case of acid lipase deficiency: Wolman's disease, 49.

Adrenal tumours
Gynaecomastia and azoospermia as sole presenting symptoms of feminizing adrenal tumor, 83.

Aging
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure not detectable in elderly subjects, 123.

AIDS
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS regeneration, 1.

Alcoholism
Lecithin: cholesterol-acyltransferase (LCAT) activity in alcoholic liver disease, 30.

Aneurysms
The usefulness of dynamic CT in patients with aneurysm of Willis circle. Comparative study with the angiography, 22.

Angiography
The usefulness of dynamic CT in patients with aneurysm of Willis circle. Comparative study with the angiography, 22.

Anterior cerebral artery
Evaluation of cerebral blood flow in premature newborns by duplex scanning using a high resolution probe, 8.

Anti-HBc
Anti-HIV and anti-HBc antibodies and HBsAg in postmortem blood of drug addicts: The picture for 1988, 137.

Anti-HIV
Anti-HIV and anti-HBc antibodies and HBsAg in postmortem blood of drug addicts: The picture for 1988, 137.

Arteriosclerosis
Lipidemic effects of a mild-term treatment with calcium heparin in vasculopathic subjects, 171.

Ascites
Plasma levels of atrial natriuretic peptide in compensated and decompensated cirrhosis of the liver. Relationship with the renin-aldosterone system, 166.

Asthma
The effects of long term Tranilast administration on bronchial hypersensitivity in asthmatics, 88.

Atrial natriuretic peptide
Plasma levels of atrial natriuretic peptide in compensated and decompensated cirrhosis of the liver. Relationship with the renin-aldosterone system, 166.

Azoospermia
Gynaecomastia and azoospermia as sole presenting symptoms of feminizing adrenal tumor, 83.

Benfluorex
Benfluorex action on metabolic control and insulin sensitivity in type 2 non-insulin dependent diabetics, 114.

Bone marrow involvement
Bone marrow involvement in Kaposi's disease. Report of a case, 144.

Breathing pattern
Breathing pattern assessment in normocapnic and hypercapnic patients in chronic obstructive pulmonary, disease, 80.

Bronchial hypersensitivity
The effects of long term Tranilast administration on bronchial hypersensitivity in asthmatics, 88.

Calcium-heparin
Lipidemic effects of a mild-term treatment with calcium heparin in vasculopathic subjects, 171.
Low molecular weight heparin in the symptomatic treatment of chronic venous insufficiency. Controlled double blind study vs calcium heparin, 127.

Cancer
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS regeneration, 1.

Cardiac function
Cardiovascular effects induced by progesterone administration, 28.

Carotid endarterectomy
Prevention of ischemic stroke after TIA: Medical or surgical treatment? A review of the main trials, 57.

Carotid plaques
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Cells identification
Rapid method for cultured trophoblast cells identification, 42.

Cerebral blood flow
Evaluation of cerebral blood flow in premature newborns by duplex scanning using a high resolution probe, 8.

Chest neoplasms
Solitary plasmacytoma of the chest wall. A case report, 189.

Cholesterol
Lipidemic effects of a mild-term treatment with calcium heparin in vasculopathic subjects, 171.

Chronic obstructive pulmonary disease
Breathing pattern assessment in normocapnic and hypercapnic patients in chronic obstructive pulmonary disease, 80.

Chronobiology
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure not detectable in elderly subjects, 123.

Circadian rhythms
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure not detectable in elderly subjects, 123.

Cirrhosis of the liver
Plasma levels of atrial natriuretic peptide in compensated and decompensated cirrhosis of the liver. Relationship with the renin-aldosterone system, 166.

Claudicatio intermittens
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

CNS regeneration
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS regeneration, 1.

Coagulative system
An evaluation of some inflammatory, coagulative and immune factors in progressive systemic sclerosis, 76.

Constitutional bone disease
Craniofacial dysostosis (Crouzon's disease) associated with metaphyseal dysplasia (Pyle's disease) in the same subject. A roentgenologic study, 192.

Craniofacial dysostosis
Craniofacial dysostosis (Crouzon's disease) associated with metaphyseal dysplasia (Pyle's disease) in the same subject. A roentgenologic study, 192.

Crouzon's disease
Craniofacial dysostosis (Crouzon's disease) associated with metaphyseal dysplasia (Pyle's disease) in the same subject. A roentgenologic study, 192.

CT, dynamic
The usefulness of dynamic CT in patients with aneurysm of Willis circle. Comparative study with the angiography, 22.

Cultural trophoblast
Rapid method for cultured trophoblast cells identification, 42.

Deep hypothermia
Neoplastic thrombosis of the inferior vena cava and right atrium due to kidney cancer. Three surgically treated cases, 140.

Defibrotide
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Diabetes mellitus
Prevalence of diabetes mellitus in common rheumatic diseases, 11.

Diabetes, type 2
Benfluorex action on metabolic control and insulin sensitivity in type 2 non-insulin dependent diabetics, 114.

Diencephalon
On goitres and the stupidity which in some countries accompanies them. Endeavours of Vincenzo Malacarne, from Saluzzo, 97.

Diet
Reductions of body weight and blood pressure in obese hypertensive patients treates by diet, 13.

Doppler
Evaluation of cerebral blood flow in premature newborns by duplex scanning using a high resolution probe, 8.

Drug abuse
Drug abuse in pregnancy: fetal growth and malformations, 71.

Drug addicts
Anti-HIV and anti-HBc antibodies and HBsAg in postmortem blood of drug addicts: The picture for 1988, 137.

Duplex scanning
Evaluation of cerebral blood flow in premature newborns by duplex scanning using a high resolution probe, 8.

Electro-magnetism
On the electro-magnetic nature of life, 151.

Endemic cretinism
On goitres and the stupidity which in some countries accompanies them. Endeavours of Vincenzo Malacarne, from Saluzzo, 97.

Endocrine rhythms
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure not detectable in elderly subjects, 123.

Fetal growth and malformations
Drug abuse in pregnancy: fetal growth and malformations, 71.

Flogosis parameters
An evaluation of some inflammatory, coagulative and immune factors in progressive systemic sclerosis, 76.

Gastric ulcer
Histological aspects and healing rates of gastric ulcers treated with omeprazole 20 mg once daily or ranitidine 150 mg B.I.D., 94.

Gastropathy
Asymptomatic and symptomatic gastroduodenal patients affected by rheumatic disease treated with non-steroidal anti-inflammatory drugs, 16.

4×10^{-5} gauss to 4×10^{-11} gauss
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS regeneration, 1.

Goiter
On goitres and the stupidity which in some countries accompanies them. Endeavours of Vincenzo Malacarne, from Saluzzo, 97.

Gynaecomastia
Gynaecomastia and azoospermia as sole presenting symptoms of feminizing adrenal tumor, 83.

HBsAg
Anti-HIV and anti-HBc antibodies and HBsAg in postmortem blood of drug addicts: The picture for 1988, 137.

Hemangioma
Hemangioma of the small bowel. Case report, 148.

Hemodialysis
Tolerability of pirazinamide (PZA) in tubercular patients under hemodialysy. Eleven cases report, 54.

Heparin
Lipidemic effects of a mild-term treatment with calcium heparin in vasculopathic subjects, 171.
Low molecular weight heparin in the symptomatic treatment of chronic venous insufficiency. Controlled double blind study vs calcium heparin, 127.

HIV
Anti-HIV antibodies in postmortem vitrous humor, 187.
Serum adenosine deaminase activity in HIV positive subjects. A hypothesis on the significance of ADA2, 107.

Human fetus
Body size and thermic exchanges in the human fetus, 46.
Fetal motor activity and spine development, 183.

Hypercapnia
Breathing pattern assessment in normocapnic and hypercapnic patients in chronic obstructive pulmonary disease, 80.

Hypertension
Reductions of body weight and blood pressure in obese hypertensive patients treates by diet, 13.
Serum lipoperoxide levels in pregnancy induced hypertension, 119.

Hypophysis
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure not detectable in elderly subjects, 123.

10^{-3} Hz to 10^{3} Hz
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS regeneration, 1.

Ig
Anti-HIV and Anti-HBc antibodies and HBsAg in postmortem blood of drug addicts: The picture for 1988, 137.

IgG
Anti-HIV antibodies in postmortem vitrous humor, 187.

Ileum
Hemangioma of the small bowel. Case report, 148.

Impotence
Vanishing penis syndrome: The Ife experience, 198.

Inferior vena cava
Neoplastic thrombosis of the inferior vena cava and right atrium due to kidney cancer. Three surgically treated case, 140.

Insulin
Benfluorex action on metabolic control and insulin sensitivity in type 2 non-insulin dependent diabetics, 114.

Iodine prophylaxis
On goitres and the stupidity which in some countries accompanies them. Endeavours of Vincenzo Malacarne, from Saluzzo, 97.

Ischemic stroke
Prevention of ischemic stroke after TIA: Medical or surgical treatment? A review of the main trials, 57.

Jacobson resonance
On the electro-magnetic nature of life, 151.
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS, regenerations, 1.

Kaposi's disease
Bone marrow involvement in Kaposi's disease. Report of a case, 144.

Kidney cancer
Neoplastic thrombosis of the inferior vena cava and right atrium due to kidney cancer. Three surgically treated cases, 140.

Larynx
Tuberculosis of the larynx. Today, 134.

LCAT activity
Lecithin: cholesterol-acyltransferase (LCAT) activity in alcoholic liver disease, 30.

Lecithin: cholesterol-acyltransferase
Lecithin: cholesterol-acyltransferase (LCAT) activity in alcoholic liver disease, 30.

Life
On the electro-magnetic nature of life, 151.

Lipoprotein
Lipidemic effects of a mild-term treatment with calcium heparin in vasculopathic subjects, 171.

Liver cirrhosis
Plasma levels of atrial natriuretic peptide in compensated and decompensated cirrhosis of the liver. Relationship with the renin-aldosterone system, 166.

Liver disease
Lecithin: cholesterol-acyltransferase (LCAT) activity in alcoholic liver disease, 30.

Low molecular weight heparin
Low molecular weight heparin in the symptomatic treatment of chronic venous insufficiency. Controlled double blind study vs calcium heparin, 127.

Lung embolism
The release of thromboxane B_2 and 6-keto-$PGF_{1\alpha}$ following pulmonary embolism, 177.

Lung function
Effect of lung resection on pulmonary function. A comparative study in different surgical procedure, 19.

Magneto-therapy
The mathematical framework essential for magneto-therapy in the treatment of genomic and associated disorders, including cancer, AIDS, and CNS regeneration, 1.

Malacarne Vincenzo
On goitres and the stupidity which in some countries accompanies them. Endeavours of Vincenzo Malacarne, from Saluzzo, 97.

Metaphyseal dyplasia
Craniofacial dysostosis (Crouzon's disease) associated with metaphyseal dysplasia (Pyle's disease) in the same subject. A roentgenologic study, 192.

Middle cerebral artery
Evaluation of cerebral blood flow in premature newborns by duplex scanning using a high resolution probe, 8.

Morphometry
Body size and thermic exchanges in the human fetus, 46.

Motor activity
Fetal motor activity and spine development, 183.

Multiple myeloma
Solitary plasmacytoma of the chest wall. A case report, 189.

Non invasive vascular investigation
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Non-steroidal anti-inflammatory drugs
Asymptomatic and symptomatic gastroduodenal patients affected by rheumatic disease treated with non-steroidal anti-inflammatory drugs, 16.

NSAID
Asymptomatic and symptomatic gastroduodenal patients affected by rheumatic disease treated with non-steroidal anti-inflammatory drugs, 16.

Obesity
Reductions of body weight and blood pressure in obese hypertensive patients treates by diet, 13.

Omeprazole
Histological aspects and healing rates of gastric ulcers treated with omeprazole 20 mg once daily or ranitidine 150 mg B.I.D., 94.

Osteoarthritis
Prevalence of diabetes mellitus in common rheumatic arthritis, 11.

Peptic ulcer disease
Asymptomatic and symptomatic gastroduodenal patients affected by rheumatic disease treated with non-steroidal anti-inflammatory drugs, 16.

Periarthritis
Prevalence of diabetes mellitus in common rheumatic arthritis, 11.

Peripheral vascular disease
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Plasma aldosterone
Plasma levels of atrial natriuretic peptide in compensated and decompensated cirrhosis of the liver. Relationship with the renin-aldosterone system, 166.

Plasma renin activity
Plasma levels of atrial natriuretic peptide in compensated and decompensated cirrhosis of the liver. Relationship with the renin-aldosterone system, 166.

Plasmacytoma
Solitary plasmacytoma of the chest wall. A case report, 189.

Platelet inhibition
Prevention of ischemic stroke after TIA: Medical or surgical treatment? A review of the main trials, 57.

Postoperative hypoxemia
Effect of lung resection on pulmonary function. A comparative study in different surgical procedure, 19.

Pregnancy
Drug abuse in pregnancy: fetal growth and malformations, 71.
Prenatal diagnosis of heterozygosis in a pregnancy at risk for Wolman's disease at the 8th week of gestation, 180.
Serum lipoperoxide levels in pregnancy induced hypertension, 119.

Premature newborns
Evaluation of cerebral blood flow in premature newborns by duplex scanning using a high resolution probe, 8.

Prenatal diagnosis
Prenatal diagnosis of heterozygosis in a pregnancy at risk for Wolman's disease at the 8th week of gestation, 180.

Progesterone
Cardiovascular effects induced by progesterone administration, 28.

Prostanoids
The release of thromboxane B_2 and 6-keto-$PGF_{1\alpha}$ following pulmonary embolism, 177.

Pyle's disease
Craniofacial dysostosis (Crouzon's disease) associated with metaphyseal dysplasia (Pyle's disease) in the same subject. A roentgenologic study, 192.

Pyrazinamide
Tolerability of pirazinamide (PZA) in tubercular patients under hemodialysy. Eleven cases report, 54.

Ranitidine
Histological aspects and healing rates of gastric ulcers treated with omeprazole 20 mg once daily or ranitidine 150 mg B.I.D., 94.

Raynaud's disease and phenomenon
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Rheumatic disease
Asymptomatic and symptomatic gastroduodenal patients affected by rheumatic disease trated with nonsteroidal anti-inflammatory drugs, 16.

Rheumatoid arthritis
Prevalence of diabetes mellitus in common rheumatic arthritis, 11.

Serum lipoperoxide
Serum lipoperoxide levels in pregnancy induced hypertension, 119.

Small bowel
Hemangioma of the small bowel. Case report, 148.

Spine development
Fetal motor activity and spine development, 183.

Stress
Serum lipoperoxide levels in pregnancy induced hypertension, 119.

Systemic scleroderma
An evaluation of some inflammatory, coagulative and immune factors in progressive systemic sclerosis, 76.

Thermoregulation
Body size and thermic exchanges in the human fetus, 46.

Thoracic surgery
Effect of lung resection on pulmonary function. A comparative study in different surgical procedure, 19.

Thrombosis
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Thromboxane B_2
The release of thomboxane B_2 and 6-keto-$PGF_{1\alpha}$ following pulmonary embolism, 177.

Thyroids
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure not detectable in elderly subjects, 123.

Thyroxine
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure non detectable in elderly subjects, 123.

Tranilast
The effects of long term Tranilast administration on bronchial hypersensitivity in asthmatics, 88.

Transitory cerebral ischemia
Prevention of ischemic stroke after TIA: Medical or surgical treatment? A review of the main trials, 57.

Transitory ischemic attacks
Prevention of ischemic stroke after TIA: Medical or surgical treatment? A review of the main trials, 57.

Triglyceride
Lipidemic effects of a mild-term treatment with calcium heparin in vasculopathic subjects, 171.

Trophoblast
Rapid method for cultured trophoblast cells identification, 42.

TSH
Day-time changes for pituitary-thyroid hormones denote a rhythmic structure non detectable in elderly subjects, 123.

Tuberculosis
Tolerability of pirazinamide (PZA) in tubercular patients under hemodialysy. Eleven cases, report, 54.
Tuberculosis of the larynx. Today, 134.

Urokinase
The release of thromboxane β_2 and 6-keto-$PGF_{1\alpha}$ following pulmonary embolism, 177.

Vanishing penis syndrome
Vanishing penis syndrome: The Ife experience, 198.

Venous insufficiency
Low molecular weight heparin in the symptomatic treatment of chronic venous insufficiency. Controlled double blind study vs calcium heparin, 127.

Venous thrombosis
Clinical evaluation of defibrotide in the treatment of arterial and venous vascular disease. A preliminary report, 34.

Vitreous humor, postmortem
Anti-HIV antibodies in postmortem vitrous humor, 187.

Willis circle
The usefulness of dynamic CT in patients with aneurysm of Willis circle. Comparative study with the angiography, 22.

Wolman's disease
A case of acid lipase deficiency: Wolman's disease, 49.
Prenatal diagnosis of heterozygosis in a pregnancy at risk for Wolman's disease at the 8th week of gestation, 180.
